B-3187 - B-3195   1852-1870's
227-207 Churchill St.   (South side)
Baltimore, Md.
Private access

    Most of the small two and a half story and two story, gable -roofed brick
houses built along this side of Churchill St. were built either as servant's
or rental houses, or as carriage houses for the large houses to the rear of
these houses, facing on Warren Ave.   211, and 213-215 Churchill St. are two story,
two bay wide converted carriage houses with shed roofs; 221 Churchill St. has
been enlarged to a three story, two bay house with shed roof and bracketed cornice.

DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

This two story, two bay brick house with shed roof is one of the small alley houses extending along this side of Churchill St. It has recently been restored.

The house is two stories in height, about 15' wide, and occupies a lot 41' deep. The house is two rooms deep and has no rear additions. It is constructed in running bond. The shed roof is capped by a new cornice consisting of a deeply projecting crown molding supported by a row of scroll-sawed plain brackets set against a plain freize area. There are no extant roof chimneys.

The first and second floor door and window openings have flat wood lintels and brick header sills. All of the window openings are filled with new 6/6 sash. A modern six panel door is set beneath a single light transom filled with a piece of new stained glass. The house sits on a high basement, the entrance being reached by four brick steps. A square-shaped coal opening is located beneath the first floor window.

STATEMENT OF SIGNIFICANCE

    This small alley house is representative of a type of former carriage house
which has been converted to residential use. Many of the structures along this side
of Churchill St. were originally carriage houses used by residents of the corresponding
houses along Warren Ave., whose lots ran back to Churchill St. This particular block
of Churchill St. has long been of interest to renovators and most of these former
carriage houses have been turned into attractive dwellings.
